LOOK FOR THESE ICONS THROUGHOUT THE CATALOG

STANDARD PRODUCTION

On all catalog items/quantities Standard Production orders ship 10 working days from proof approval.

All purchase orders and artwork received prior to 10:00 AM will be entered same day. Orders received after 10:00 AM may be entered next working day.

RUSH SERVICE

Orders ship 5 working days from proof approval.

If this service is available the "Rush Service" icon will be displayed next to the item. Due to the variability of timing and volume of orders being received, "Rush Service" may not be available at all times on all items. Whenever requesting Rush Service, it is best to contact the factory to make sure that the requested "Rush Service" is available on that particular item of interest. Please include your "In Hands" date on your purchase order. Add a 15% surcharge to the total per piece price. The minimum fee for this service is \$65(v). All purchase orders and artwork received prior to 10:00 AM will be entered same day. Orders received after 10:00 AM may be entered next working day.

24 HOUR LIGHTNING SERVICE

Orders ship 24 hours after receipt of proof approval.

If this service is available the "24 Hour Lightning Service" icon will be displayed next to the item. Proofs will be provided within 24 hours of receipt of the purchase order and artwork (sent to our specifications - see pages 49 - 51). If the proof approval is received by 10:00 AM ET, your order will ship the following working day. ALL proofs must be signed, dated and either faxed or emailed to us without exception. It will be assumed that for any "24 hour Lightning Service" order, the job will ship overnight unless otherwise stated in writing.

Due to the variability of timing and volume of orders being received, "24 Hour Lightning Service" may not be available at all times on items. Whenever requesting "24 Hour Lightning Service", it is best to contact the factory to make sure that the service is available on your item. Please include your "In Hands" date on your purchase order. Add a 30% surcharge to the total per piece price. The minimum fee is \$95(v) for this service. All purchase orders and artwork received prior to 10:00 AM will be entered same day. Orders received after 10:00 AM may be entered next working day.

INTRODUCING

TC-30
COASTERS
See page 37 and website

TC-30, table coaster is an inexpensive gift. Sets of 2, 4 or more can be designed with different pictures or messages.

Pleather Luggage Tags, LT50-PLT, looks and feels like leather; but it's plastic! A Leatherette Strap completes this high end look. Even the imprint looks debossed. This is available in the 4 standard background colors; but custom background colors are available.

CARDS WITH MAGNETIC STRIPES AND BARCODES

GC-30
GIFT CARD

ACC-30
ACCESS CARDS

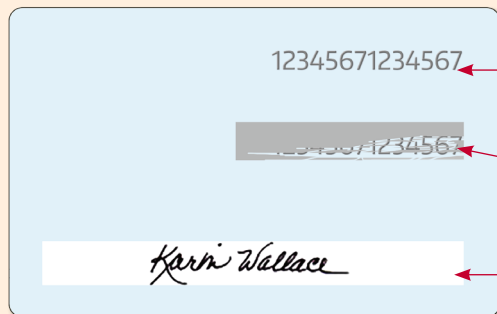

Magnetic striped cards are swiped.

300 oer or 600 oer are LoCo with a dark brown magnetic strip. These LoCo strips are used when the cards are not needed to last for a long time. Examples are hotel room access cards, membership cards, and gift cards. 2750 oer are HiCo cards and have a black magnetic strip. This more expensive strip is used for cards frequently used over long periods of time. Examples of HiCo cards are credit cards, drivers' license cards, and proximity cards.

Barcodes are scanned.

There are many types of barcodes depending on what is being scanned. Code 39, however, is the most popular and easiest to use; consisting of alpha-numeric barcodes.

Water Conservation Tips

- Shorten showers to 5 minutes. Take showers, not baths
 - Fix dripping faucets
 - Install water-saving bathroom accessories
 - Wash fruit and vegetables in a filled and plugged sink
 - Run the washing machine and dishwasher when they are full
 - Turn tap off while brushing teeth or shaving
- Contact your local water utility for additional information

ARTWORK SPECIFICATIONS

PLEASE USE THE FOLLOWING GUIDELINES WHEN PREPARING DIGITAL FILES FOR BUDGETCARD:

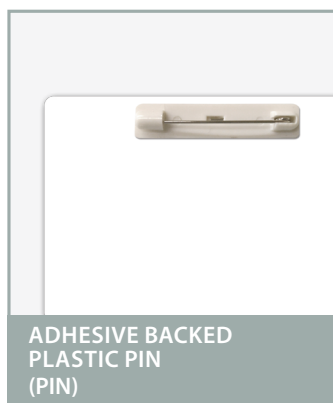

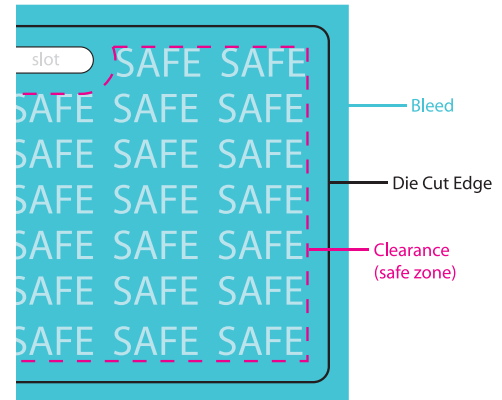

Artwork must be to size: download product templates at www.budgetcard.com

Colors must be defined as either Pantone® or CMYK colors. Art submitted as RGB will be converted to CMYK. Converting colors from RGB to CMYK may change their appearance.

Text must be at least 6 point type. Small bold and/or condensed text should be kerned out to avoid spaces filling in when printed.

Reverse Printing: We do not recommend printing logos with fine lines in reverse, as fine lines will fill in when printed. Text printed in reverse must be bold and at least 6 point type.

Clearances & Bleeds: Clearances are the minimum space required between elements of art and the finished edge of the product. We require that Ad Copy be 1/8" in from all template edges, ruler scales, holes & slots. Bleed is the distance the ink extends past the finished edge of the product before final cutting. Our Standard bleed is 1/8" (.125"). Raster files must allow for the required bleed when submitted because they are not editable like vector files.

BADGE ATTACHMENTS

Contact factory for additional information

Attachments not Prop 65 compliant but are available

ROLLED WOVEN LANYARD (LAN-38)

BULLDOG CLIP/STRAP COMBO (BDC-5)

ADHESIVE BACKED BULLDOG CLIP (BDC-10)

BUDGETCARD STOCK RULER SCALES

Ruler Scales: Must bleed 1/8", and the shortest increments on scales must be at least 1/8". Customer agrees to a 1/32 tolerance on ruler scales. These are not precision instruments, and should be used accordingly. Inches and cm's on front are standard. Architectural and Engineering scales available at no additional charge, but must be noted on order.

PLEASE USE THE FOLLOWING GUIDELINES WHEN PREPARING DIGITAL FILES:

Software/File Format: Only professional design software packages may be used to produce artwork. Programs such as Microsoft Word, Publisher and Power Point are not capable of producing quality art files needed for imprinting purposes.

BUDGETCARD PREFERRED: ADOBE CREATIVE SUITE CC®

Illustrator® (.ai) is our graphics department's preferred layout software. Colors must be defined as either spot or CMYK. To avoid font problems, all text must be converted to curves/outlines, or font file(s) must be included/attached via email. When a clipping path is needed, create it by using pen tools and establish the fewest number of control points possible. Complex clipping paths may lead to additional art charges.

Photoshop® (.psd) We use Photoshop to edit and correct all photographic images and complex illustrations. If raster artwork is the only art available, submitting unflattened art files at 600 dpi is required for best printing results. Changing the resolution of an image from, for example, 72ppi to 300ppi will not amend the appearance of the file — it will instead cause a blown out or low resolution appearance. Images should be sized accordingly with all bleeds (if applicable) & clearances accounted for.

InDesign® (.indd) As with all submitted work, images should be sized accordingly with all bleeds (if applicable) and clearances accounted for. All fonts and image files must be included and provided upon submission.

Email Guidelines: Our e-mail address for submitting artwork is: art@budgetcard.com

E-mailed art files cannot exceed 5MB. Files larger than 5MB should be compressed with a program such as Stuffit, submitted on CD/DVD, or uploaded to our FTP site. Contact art@budgetcard.com for FTP instructions and password.

Subject: E-mail messages should include **Company Name, Quote Number and the Purchase Order Number** associated with the attached artwork. "artwork for XYZ Promotions - PO#0000."

Art Charges/Billing: Any required work such as typesetting, color separation, touch-up, creating bleeds, adding crop marks, etc. is subject to an art charge. Time spent preflighting/troubleshooting files (corresponding with client, searching for logos/type fonts, etc.) is also subject to an art charge. Please note, your job will take longer to reach production if Budgetcard prepares your art for you. **Budgetcard bills \$50 (v) per hour for artwork.** We will advise the client if their art charge exceeds \$40 (v) and does not appear on the purchase order as a line item "estimated art charge". Client will also be advised if their art charge exceeds the estimated art charge by more than \$40 (v).

Variable Data: Data files should be supplied as either Microsoft Excel, dBase, CSV or as delimited text files. Files will be produced in the order supplied unless otherwise specified on your purchase order. Consecutive Numbering does not require a data file, please specify the starting number and number of digits on the purchase order.
