LOOK FOR THESE ICONS THROUGHOUT

STANDARD PRODUCTION

On all catalog items/quantities Standard Production orders ship 10 working days from proof approval.

All purchase orders and artwork received prior to 10:00 AM will be entered same day. Orders received after 10:00 AM may be entered next working day.

RUSH SERVICE

Orders ship 5 working days from proof approval.

If this service is available the "Rush Service" icon will be displayed next to the item. Due to the variability of timing and volume of orders being received, "Rush Service" may not be available at all times on all items. Whenever requesting Rush Service, it is best to contact the factory to make sure that the requested "Rush Service" is available on that particular item of interest. Please include your "In Hands" date on your purchase order. Add a 15% surcharge to the total per piece price. The minimum fee for this service is \$65(v). All purchase orders and artwork received prior to 10:00 AM will be entered same day. Orders received after 10:00 AM may be entered next working day.

24 HOUR LIGHTNING SERVICE

Orders ship 24 hours after receipt of proof approval.

If this service is available the "24 Hour Lightning Service" icon will be displayed next to the item. Proofs will be provided within 24 hours of receipt of the purchase order and artwork (sent to our specifications - see pages 49 – 51). If the proof approval is received by 10:00 AM ET, your order will ship the following working day. ALL proofs must be signed, dated and either faxed or emailed to us without exception. It will be assumed that for any "24 hour Lightning Service" order, the job will ship overnight unless otherwise stated in writing.

Due to the variability of timing and volume of orders being received, "24 Hour Lightning Service" may not be available at all times on items. Whenever requesting "24 Hour Lightning Service", it is best to contact the factory to make sure that the service is available on your item. Please include your "In Hands" date on your purchase order. Add a 30% surcharge to the total per piece price. The minimum fee is \$95(v) for this service. All purchase orders and artwork received prior to 10:00 AM will be entered same day. Orders received after 10:00 AM may be entered next working day.

ARTWORK SPECIFICATIONS

PLEASE USE THE FOLLOWING GUIDELINES WHEN PREPARING DIGITAL FILES FOR BUDGETCARD:

Artwork must be to size: download product templates at www.budgetcard.com

Colors must be defined as either Pantone® or CMYK colors. Art submitted as RGB will be converted to CMYK. Converting colors from RGB to CMYK may change their appearance.

Text must be at least 6 point type. Small bold and/or condensed text should be kerned out to avoid spaces filling in when printed.

Reverse Printing: We do not recommend printing logos with fine lines in reverse, as fine lines will fill in when printed. Text printed in reverse must be bold and at least 6 point type.

Clearances & Bleeds: Clearances are the minimum space required between elements of art and the finished edge of the product. We require that Ad Copy be 1/8" in from all template edges, ruler scales, holes & slots. Bleed is the distance the ink extends past the finished edge of the product before final cutting. Our Standard bleed is 1/8" (.125"). Raster files must allow for the required bleed when submitted because they are not editable like vector files.

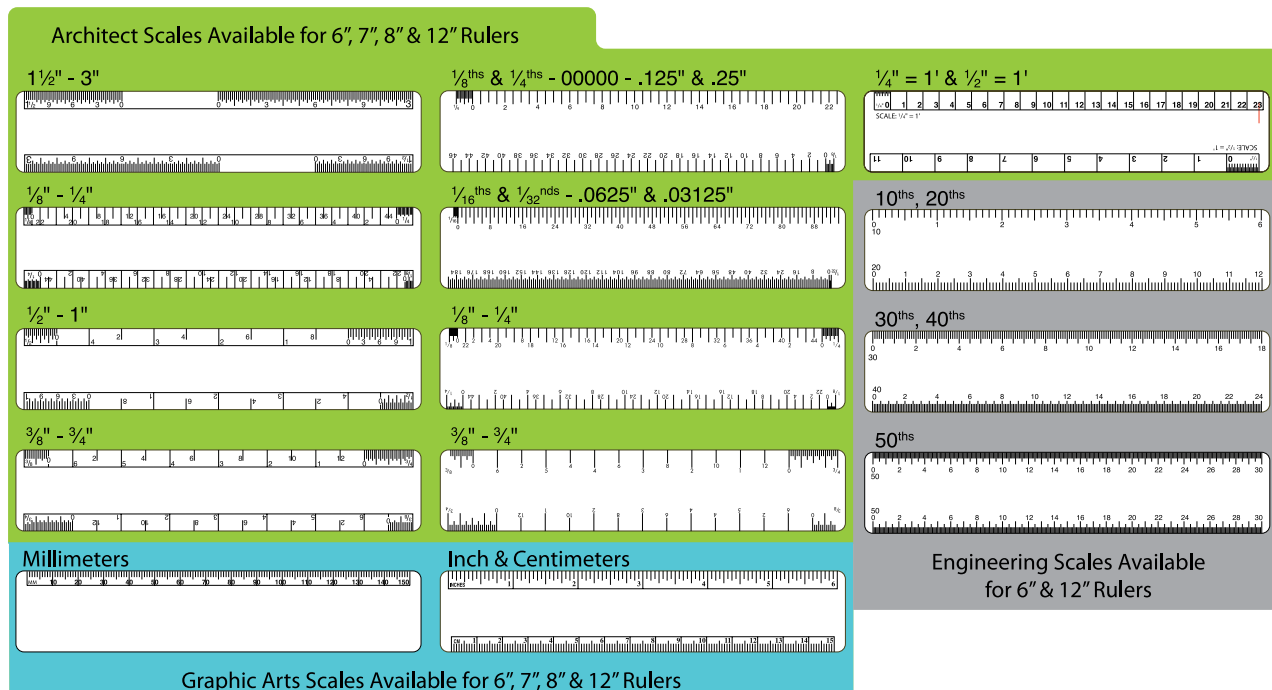

BADGE ATTACHMENTS

Contact factory for additional information or visit our website.

For other badge attachments, contact factory.

BUDGETCARD STOCK RULER SCALES

Ruler Scales: Must bleed 1/8", and the shortest increments on scales must be at least 1/8". Customer agrees to a 1/32 tolerance on ruler scales. These are not precision instruments, and should be used accordingly. Inches and cm's on front are standard. Architectural and Engineering scales available at no additional charge, but must be noted on order.

PLEASE USE THE FOLLOWING GUIDELINES WHEN PREPARING DIGITAL FILES:

Software/File Format: Only professional design software packages may be used to produce artwork. Programs such as Microsoft Word, Publisher and Power Point are not capable of producing quality art files needed for imprinting purposes.

BUDGETCARD PREFERRED: ADOBE CREATIVE SUITE CC®

Illustrator® (.ai) is our graphics department's preferred layout software. Colors must be defined as either spot or CMYK. To avoid font problems, all text must be converted to curves/outlines, or font file(s) must be included/attached via email. When a clipping path is needed, create it by using pen tools and establish the fewest number of control points possible. Complex clipping paths may lead to additional art charges.

Photoshop® (.psd) We use Photoshop to edit and correct all photographic images and complex illustrations. If raster artwork is the only art available, submitting unflattened art files at 600 dpi is required for best printing results. Changing the resolution of an image from, for example, 72ppi to 300ppi will not amend the appearance of the file — it will instead cause a blown out or low resolution appearance. Images should be sized accordingly with all bleeds (if applicable) & clearances accounted for.

InDesign® (.indd) As with all submitted work, images should be sized accordingly with all bleeds (if applicable) and clearances accounted for. All fonts and image files must be included and provided upon submission.

Email Guidelines: Our e-mail address for submitting artwork is: art@budgetcard.com

E-mailed art files cannot exceed 5MB. Files larger than 5MB should be compressed with a program such as Stuffit, submitted on CD/DVD, or uploaded to our FTP site. Contact art@budgetcard.com for FTP instructions and password.

Subject: E-mail messages should include **Company Name, Quote Number and the Purchase Order Number** associated with the attached artwork. "artwork for XYZ Promotions - PO#0000."

Art Charges/Billing: Any required work such as typesetting, color separation, touch-up, creating bleeds, adding crop marks, etc. is subject to an art charge. Time spent preflighting/troubleshooting files (corresponding with client, searching for logos/type fonts, etc.) is also subject to an art charge. Please note, your job will take longer to reach production if Budgetcard prepares your art for you. **Budgetcard bills \$50 (v) per hour for artwork.** We will advise the client if their art charge exceeds \$40 (v) and does not appear on the purchase order as a line item "estimated art charge". Client will also be advised if their art charge exceeds the estimated art charge by more than \$40 (v).

Variable Data: Data files should be supplied as either Microsoft Excel, dBase, CSV or as delimited text files. Files will be produced in the order supplied unless otherwise specified on your purchase order. Consecutive Numbering does not require a data file, please specify the starting number and number of digits on the purchase order.

No Plates or Screens (Setup Charge) if quantity is 10,000 pieces. **Pricing:** Subject to change without notice. Refer to www.budgetcard.com website for the most current information. **Programming Charge:** for personalization and numbering: \$50.00 (v). Programming charge is not necessary if numbering is consecutive. **Proofs:** required on every order. No charge for the first proof sent via fax or email. For a revised proof, add \$20.00 (v) per proof.

Preproduction proofs are required for item PPC-30, Clear Cards and may be required on some jobs. A signed proof is legal and binding acceptance of copy as is. All proofs should be signed, dated and returned via fax or email. Production time does not begin until a proof has been approved. **Preproduction proof:** \$80.00 (v) and includes overnight domestic shipping.

Over-runs/Under-runs: Due to standard printing requirements, we reserve the right to ship 5% over or under the quantity ordered. This is billed pro-rata and considered as fulfillment of the order. **For exact quantity shipments, a surcharge of 5% must be added to the purchase order.**

Print Method: Jobs are produced by either offset or screen printing. We reserve the right to determine appropriate print method without notification to the customer.

Self Personalization: If you are planning on printing our cards with a thermal printer, embossing, encoding on a magnetic stripe, typing on a panel, etc., Contact factory prior to production so that appropriate materials may be used.

Self Promotions: Any catalog item, next quantity price and no setup charges.

Production Time: Standard production is 10 working days after okay of proof. If 24 Hour or Rush Production is available on a product, it will be indicated next to the product pricing. Critical in-hands dates must be noted on the purchase order. All purchase orders and artwork received prior to 10:00 AM will be entered same day. Orders and artwork received after 10:00 AM may be entered next working day.

Random Samples: Available at no charge.

Ruler Scales: Customer agrees to a 1/64" tolerance on ruler scales. These are not precision instruments and should be used accordingly. Inches and centimeters on the front are standard. Architect and Engineering scales are available at no additional charge, but must be noted on the order (see page 49).

Shipping: Standard production times are marked next to each product as well as rush production options. Production time begins after we receive proof approval. Production time does not include the day of approval. All orders are shipped from our plant in Massachusetts via UPS ground unless otherwise specified on your purchase order. **Please make sure that the shipping method on your order acknowledgment and your ship date match your date required to have the product in hand.** Any changes to the purchase order regarding ship to address or shipping method MUST be submitted in writing via email to cs@budgetcard.com. Shipments become the property of our customer upon our delivery to the carrier. Any claims for lost or damaged shipments must be filed with the shipping carrier by the customer.

Special Packaging: Contact factory for pricing.
